

Testimonials

I am very pleased with the job performed by your crew. I love the new white door and the color and pattern of the new tile in the entrances. I also appreciate the effort made by your crew to lay the tile in the utility room where the washer, dryer and freezer-fridge had to be moved out through the small door to the outside.

Once again, thanks!

Shirley

T&N Enterprise just completed building a new front porch for my wife and I. We love it! It is exactly as we had planned it with the owner in every aspect (except for two extra grab handles for my wife that he threw in for free). We paid exactly what the estimate projected. In short, we are very pleased and would recommend this contractor to anyone wanting quality work done.
